

**FOR IMMEDIATE RELEASE, MARCH 9, 2009**

## **REMIS America, LLC Brings Big Energy Savings To Food and Beverage Retailers**

(ELKHART, INDIANA) An exciting new company is emerging in Elkhart, Indiana. REMIS America, LLC, is the result of a joint venture between, DEHCO, Inc., Elkhart, Indiana, and REMIS GmbH of Cologne, Germany. The new company will create new job growth in Elkhart county, beginning in spring of 2009.

These two companies have joined forces to offer retail grocers and refrigeration system manufacturers (OEMs) a full range of Plus Temperature Insulated Glass Doors and Bunker Freezer Covers, installation and service.

"We've built a strong relationship over the past four years, as a distributor of REMIS GmbH's innovative, lightweight products for the mobile side of our business. We've experienced, first hand the quality and attention to engineering detail REMIS offers," said Jim Schwartz, CEO of REMIS America, LLC and DEHCO, Inc.

With a potential energy savings of up to 60%, retail grocery stores now recognize the opportunity to significantly lower operating costs, while reducing their carbon footprint. Eco-friendly energy savings are only part of the story. Insulated glass doors maintain product integrity by keeping temperatures constant, for greater consumer satisfaction. These doors provide improved product visibility which enhances the selection of foods. Enclosed cases maintain a more comfortable store temperature, while providing a barrier to protect food freshness in the event of a power outage.

REMIS America, LLC's glass doors and freezer covers are engineered to fit the individual specifications of each installation. REMIS America, LLC or an authorized, trained service representative installs the custom built doors on sight, with little or no disruption to shopping flow. These proven door systems are in use in over ten thousand retail stores throughout Europe, via the sister company, REMIS GmbH of Cologne, Germany. North American OEMs now have the opportunity to include REMIS systems on new cases.

REMIS GmbH was looking for a reliable distribution and manufacturing partner in the United States, when they approached Elkhart, Indiana based DEHCO, Inc. With over 50 years of experience in manufacturing, supply chain management and fulfillment, six locations nationwide and over 1/2 million sq. ft. of computerized warehouse space, DEHCO was an ideal partner. Wolfgang Klingenberg, REMIS GmbH, "Is pleased to announce this extension of the REMIS family, and looks forward to future business opportunities."

Matt Pletcher, Managing Director, REMIS America, LLC is enthusiastic about the future. "The combination of consumer benefits and energy savings, along with the creation of new jobs, makes this venture a positive event for Elkhart County and grocery retailers across the United States and Canada."
